

CELOSIA COLLECTION

With this collection, the wish to exit from two-dimensional spaces typical of standard wall covering is translated into the experimentation of three-dimensional bricks, which gives shape to new design elements, whose high aesthetic-functional content enables limitless solutions for indoor and outdoor spaces. Roof tiles, bricks, hollow bricks and partition walls are undone, unstructured and re-interpreted in a new way, keeping a traditional touch. Celosia is available in the nominal size 20.5 x 26.5 x 10 cm.
