

Floor: Lane Aubergine 79X160mm

LANE COLLECTION

Lane is the result of a conceptual analysis of colour, interpreted through a detailed study of the neighborhoods and architectures of London. This collection allows for an endless variety of possible combinations that echo the atmospheres of London, which have always been a source of inspiration for designers' work. Lane comes in the 7.9 x 16 cm size and is suitable for both indoor and outdoor settings, on both floors and walls. The edge finish is non rectified.
