

UNIONSTONE 2 COLLECTION

Born as a tribute to stone, Unionstone 2 is a collection built to elevate the beauty of material in its primordial character. The appeal of this collection is enclosed in the deep research work on stones existing in nature, carried out with the purpose of going beyond the observation and representation of nature, but to enhance its distinctive features by restoring aesthetic and sensory beauty. This functional range is available in size 600x1200mm.
